

CITY OF PITTSBURGH

Department of Public Safety ♦ Bureau of Fire

Luke Ravenstahl, Mayor

Darryl E. Jones, Fire Chief

Dear Manager:

The City of Pittsburgh 2003 Fire Code contains changes for a Central Station to provide its services in the City of Pittsburgh for fire alarm monitoring. Failure to comply will result in the appropriate legal action being taken.

The Central Station is not required to be in the 412 area code.

An annual fee of \$110.00 is required to keep the permit active (see enclosure).

Your facility must be U.L. certified. You must submit your current certificate of compliance with your annual permit application to continue to operate in the City.

Your facility must meet all of the requirements of NFPA 72.

If you require any further information just contact me.

Sincerely,

Darryl E. Jones
Fire Chief
