Percentage 2.19%

Warrendale, Pa

Overview of Project:

The Prime (**Ground Technology, Inc. D'Appolonia**) will be working on the Cowley Recreation Center new park building and site improvements. This project will require demolition and deconstruction of all existing building structures and reconfiguration of all site amenities. The CITY requests an appropriate amount of time be dedicated to master planning/programming to confidently explore at least (3) options through the Schematic Design Phase.

Recommendation

The Office of Business Diversity recommends **the passing** of project 2501-01. Ground Technology has a total of 34.7 % of participation with two WBEs and VOSB on the contract. All subcontractors are in the region. D'Appolonia did reach out to MBE companies.
