### **Overview of Project:**

The City of Pittsburgh Department of Mobility and Infrastructure is soliciting construction bid estimates for the replacement and rehabilitation of the stone masonry retaining wall supporting Serpentine Drive in Schenley Park. A soldier pile lagging wall is to replace the collapsed portion of the existing wall. Construction to include salvaging, resetting, and facing elements with natural stone. Stormwater system improvements along roadway are included with this project as well.

### **Outreach**

Make excellent effort to reach the participation goals. They made reach out to many companies for a Good Faith Effort.
