Forum Contracting & Supply, Inc.

Carnegie, Pa.

Overview of Project:

Fire Station 20/Medic 12 will be a single-story NetZero Energy Ready Combined Emergency Medical Services (EMS) and Fire (FIRE) station. First responder amenities include but are not limited to apparatus bays, gear storage, training mezzanine, decontamination room, individual kitchen & day room for both EMS and FIRE, bunk rooms, administrative space, wellness areas, and a shared fitness room. In addition to the Public Safety program, there is also a large community room with a public lobby, and separate amenities.

Outreach

The OMB office and the Department of Public Works did an excellent job of advertising this project in the newspaper and on social media. The department also held a pre-bid meeting.

Recommendation:

The Office of Business Diversity recommends the passing of Project 2508-03. The Prime (First American Industries, Inc) is a local company with 18% MBE and 7% WBE. The project has a 25% participation.
