Harrisburg, Pa.

MBE Total Amount \$39,600.00

Percentage 15%

Maven Inc.

Bala Cynwyd, Pa

Overview of Project:

The selected firm (Malady & Wooten, Inc.) has a proven track record of lobbying and advocacy at the state level to assist the city. The primary focus of this engagement is to support the City's efforts to influence and advance legislation, secure revenues available to local governments, and assist in identifying, applying for, and obtaining competitive grants, earmarks, and other discretionary funding opportunities made available by the Commonwealth of Pennsylvania.

Outreach

The Office of Management and budget advertised in the newspaper, society media and on Beacon (City of Pittsburgh Procurement System).

Note

The subcontractor on the project, Maven Inc., is certified as both an MBE and a WBE. However, the City of Pittsburgh does not split participation credit between certification categories. Therefore, only one category may be counted toward the participation goals.

In this case, we selected the MBE designation because it helped achieve the higher participation percentage for the project.
