Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Grants of up to \$90,000 are available to buyers to reduce the purchase price of the home for those at or below 80% of Area Median Income. For developer, construction loans/grants are available up to \$166,666 per affordable unit.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	COVID-19 caused huge fluctuations in the housing market. Prices skyrocketed as demand went up while inventory went down. Sales prices remain the same or are increasing, while the cost of borrowing money rises, putting sub-80% buyers in a disadvantaged position. On the supply side, increasing the availability of affordable for-sale housing allows demand to be sufficiently met.

Total Cumulative Expenditures	\$112,938,391.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	In response to the impact COVID-19 had on revenue, the original 2021 Operating Budget and Five Year Plan included an anticipated workforce reduction line across all departments, effective 7/1/2021, totaling \$113 million over four years. These projects funds were spent in fiscal years 2021 through 2024 to avoid layoffs that would otherwise have been necessary. These position costs were worked into the Five-Year Plan beyond 2024 without relying on ARPA support.
Does this project include a capital expenditure?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	In response to the impact of COVID-19 on City revenue, the original 2021 Operating Budget and Five Year Plan included an anticipated workforce reduction line across all departments, to be effective 7/1/2021, totaling \$113 million over four years. This budget line was necessary at the time to ensure that the City of Pittsburgh could pass a balanced budget and five year plan. (Final Rule, p. 184)
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The anticipated workforce reduction budget line was calculated by taking 10.25% of 2021 salary lines across all City departments (15% for the Office of the Mayor). The total was increased by 6.5% from 2022 through 2024 to account for inflation, scheduled increases to base wages (per collective bargaining), and increases in benefit costs. This resulted in the \$113 million reduction that the City needed to balance the budget based on revenue forecasts from the Department of Finance.

Current Period Obligations	\$0.00
Current Period Expenditures	\$1,508,164.48
Project Description	The City will partner with the Urban Redevelopment Authority to offer assistance to restaurants to create permanent outdoor street seating and to offer assistance to small businesses in through the Avenues of Hope program
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	8 Imp SBs that experienced a negative economic impact
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Provide support to create permanent outdoor seating; assist in the revitalization of commercial corridors that were impacted by the pandemic; make improvements to vacant and/or abandoned commercial spaces and/or public infrastructure in disproportionately impacted communities; invest in neighborhoods to improve health outcomes in disproportionately impacted communities through the creation and/or improvement of parks and open spaces near or within the corridors
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Restaurants and small businesses were significantly impacted by COVID-19 restrictions. Street seating grants will not exceed \$90,000 and Avenues of Hope grants will not exceed \$200,000. Both numbers are significantly less than the negative economic impact experiences by the typical small business.
Number of small businesses served (by program if recipient establishes multiple separate small businesses assistance programs)	91

Project Description	The City will partner with the Urban Redevelopment Authority to support local non-profit programming.
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	10 Imp NPs that experienced a negative economic impact specify
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The non-profit's client roster increased from 400 individuals to about 4,000 individuals in the Latino community because of COVID-19. The impacted non-profit increased staffing levels to increase service levels.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The relatively small project budget aligns with non-governmental support that was given to the impacted non-profit by the foundation community. The Hispanic population in Pittsburgh, as of the 2020 census, represents approximately 4%. This funding represents 0.03% of the City's American Rescue Plan allocation.
