**Programs and Services\***

Provide a brief description of any programs or services your organization or group provided in alignment with your STOP the Violence proposal.

Our proposal was to continue to run our after school program and keep our participants off the streets and involved in valuable activities. We also took them to various areas around the country for boxing tournaments and to expose them to a world outside of their local community to broaden their world view and open their eyes to opportunities that may be available to them. this funding enabled us to do this. None of our kids are in gangs, no one got into any trouble during this time period. They all continued school attendance and got good grades.

On September 13 we were invited to the Mayor's office to receive a proclamation. From there we went to the Heinz History Center to see the unveiling of a locker to honor Sonny Taylor, one of our boxers who made it to the Olympic trials. It was an amazing day for our kids!!

Talk about showing under privileged kids what they can accomplish in their lives and building their self worth!
