We had a young man (16) that when started with us, was living in dilapidated house with no water or heat, minimal parental supervision, and limited access to food. He was going through the adjudication process and has on electric home monitoring. He was chronically absent from school and was failing most classes. This young man transformed and his circumstances completely changed due to the hard work and effort he put forth but also because of the holistic support and advocacy Cafe Momentum provide him (and continues to). He has graduated HS. Has his own stable and living- first apartment and a full-time entry level job. He remains active with our organization receiving ongoing support and care.
