Community (1).pdf

With our 1st Father's Day event, we were able to bring the community together, were able to inform them of the different things going on in our community and how they could be involved. By coming together and having these conversations with the community we were able to work together to get our youth football & cheer teams back into a league and playing for our community. This was a huge win for the community. At our Sarah Dixon Innovation Center meeting, we were able to educate over 100 residents and non-residents on the project and how we can become the owners of this project. 20 residents volunteered to be a part of the project steering committee. We believe by fostering community engagement in all aspects of our community we can bring residents together, in order to get to know 1 another and be able to address the barriers that may exist between the various neighborhoods of the community. Through social interaction we will accomplish our goal of stopping violence in our community.
